Andrew -- please set up a call with him. We need to resolve this quickly because, IF they get a bypass, they need it before 2/15.

Subject: Washington Aqueduct Bypass

Michelle,

I just got off the phone with Josh Rodriguez from DDOE. He does not believe that we were given all relevant information from the Washington Aqueduct for the bypass which we approved. Since it was decided that enforcement would handle this request, I am deferring to Stef and Andrew for resolution of this.

I will be out of the office until December 15, 2014. Please keep me posted with what happens with this, as this bypass was contingent upon certain conditions, including maintaining compliance with the permit. DDOE is not under the impression, based on its inspection, that permit compliance is being maintained. Alas, I am deferring to the enforcement folks for this determination.

I will be checking email periodically while I am on travel, but for anything pressing, please see Francisco through December 5, and Brian the 8th through the 12th.

Thanks,

kaitlyn
